MEMORANDUM FOR: 25X1A RECORD

SUBJECT :

1. In view of a decision reached by DD/P to review and revise the plans within CIA's current or reasonably prospective capabilities, it was agreed that the FE Planning Staff, with the assistance and collaboration of the PY Division, would recast the plans somewhat as follows:

a. [REDACTED]

(1) ~~Indicate~~ those tasks of CIA responsibility directed against targets outside the military theater.

(2) Review the JCS draft paper of May 19, 1952, and, in light of the position of the JCS that the Theater Commander is responsible for all unconventional activities within the theater, indicate by a general statement that CIA is prepared to undertake tasks prescribed by the Theater Commander within its current capabilities and that logistical and personnel support ~~is~~ must accompany any assignment beyond current capabilities. (This

should then eliminate existing Annexes A, B, and C.)

✓ (3) Make some proviso that the CIA Senior Representative is authorized to call upon the Theater Commander for logistical aid and assistance for such tasks outside the Theater which may have indirect impact upon his command as set forth in paragraph 4.b., page 6, of the JCS document.

25X1A

b. [REDACTED]

25X1A

(1) Recast the tasks of [REDACTED] under the category of those currently being undertaken or within CIA's prospective capabilities, exclusive of dependency upon the military for assistance.

(2) Establish a second section of the plan which indicates desirable tasks to be undertaken but which require logistical support from the military field commander.

(3) Establish a proviso in the plan which could provide a mechanical procedure authorizing the Senior CIA Representative to call upon the field commander under Plan [REDACTED] for such logistical support required for operations within Korea or external to Korea, or alternatively, that CIA requires ~~the~~

to them immediately upon implementation of a truce. (If a reduced annex is therefore required for this plan to meet the above contingency, it should be appended.)

unconventional operations
2. The above considerations assume that CIA ~~is~~ under the control of
25X1A
the Theater Commander under Plan [REDACTED] for those activities within Korea,
and that CIA is autonomously independent for those activities within Korea
25X1A
upon implementation of [REDACTED]

3. After the plans are in some acceptable draft form, as outlined above, and the major factors have been resolved, the plans will be submitted to CFE for his *approval* ~~concurrence~~, after which time they should be informally coordinated with the JSPD (Colonel Wright) and then submitted to the 10/2 representatives with an accompanying transmittal letter to the PSB indicating that CIA can accomplish only such parts of the original PSB plan as are within its immediate capabilities and that its expanded activities must be consistent with the provisions of the newly drafted plans which require "on-the-spot" support, ~~logistical support~~ from the military field commander.
